Summary

Front-End Web Developer specializing in **HTML/CSS, JavaScript, Vue.js, and React**. Skilled in building intuitive, user-friendly websites and applications with a focus on responsive design, modern styling, and a seamless user experience.

Work Experience

Front End Developer, LastFloors, Istanbul

January 2024 - Present

- **Collaborated with web designers and back-end developers** to ensure web applications met customer requirements.
- **Integrated APIs:** Connecting the application with external services and data sources, ensuring efficient data exchange and functionality.
- **Worked on user authentication features:** Contributed by developing a secure password change component.
- **Developed a Networking component:** Created an interactive card that enables users to send connection requests, enhancing user engagement and facilitating networking within the application.
- **Implemented TypeScript:** Improved code quality and scalability by incorporating TypeScript, ensuring type safety and reducing runtime errors in complex applications.
- **Utilized Tailwind CSS:** Ensured consistent and modern styling across components by implementing Tailwind CSS.
